Wendy Dixon, Project Manager  
 Yucca Mountain Environmental Impact Statement  
 Office of Civilian Radioactive Waste Management  
 P.O. Box 30307 Mail Stop 010  
 North Las Vegas, NV 89036-0307

Dear Ms. Dixon:

1  
continued  
below  
I am writing as ~~the parent of a child~~ a citizen of Webster Groves,  
 MO to express my great concern and strong objection to the transport of radioactive  
 nuclear waste through our community. It is reported that the plan for transporting this  
 waste will be by means of our railway lines at a rate of every two days for the next thirty  
 years.

2  
The potential for disaster with regular shipments of this magnitude is enormous. The rail  
 lines that run past my church and the homes of my neighbors are busy 24 hours a day, 7  
 days a week. The potential of a railway accident or of an individual or group determined  
 to cause harm makes it unconscionable to consider endangering the lives and com-  
 munities that this lethal radioactive nuclear waste would travel through.

3  
I strongly encourage your agency to reconsider and respond with a waste disposal plan  
 that would minimize the danger to all of our communities and provide opportunities for  
 direct citizen involvement in its design and implementation. Your response to my  
 concerns would be much appreciated.

Sincerely,

*David L. Stranquist*
